PROFESSIONAL SUMMARY

Product Designer with **4+ years** of experience designing mission-critical products in payments, fintech, and B2B SaaS, from discovery to engineering handoff. Led the redesign of a point-of-sale platform serving **200+ stores** (50%+ faster core flows, 60–90% fewer payment, inventory, and sync errors) and owned a PCI-DSS-certified B2B payments platform end-to-end. Combines systems thinking, data-informed decisions, and design systems with 10 years of cross-sector stakeholder facilitation, and uses AI-assisted workflows (prompt engineering, reusable prompt library) to accelerate analysis and documentation.

KEY ACHIEVEMENTS

50%+
Faster core flows and 60–90% fewer payment, inventory and sync errors in ZePOS, serving 200+ stores (Zebrands).

40%
Fewer support tickets via role segmentation for three user types on a PCI-DSS B2B payments platform (Insight One).

500+
Store employees trained remotely, plus Portuguese-language materials for the Brazil launch (Zebrands).

PROFESSIONAL EXPERIENCE

Product Designer (UX/UI) · *Zebrands*

Dec 2024 – Apr 2026 · Remote

Omnichannel Point-of-Sale Platform

- Led the end-to-end redesign of ZePOS after a critical failure affected 200+ stores, working with an 18-person cross-functional team and making product strategy decisions alongside the CTO, CPO and technical lead, with no dedicated product manager.
- Diagnosed root causes using user feedback, operational evidence and production monitoring (Sentry, Grafana); redesigned payment, inventory and synchronization workflows, cutting core flow times by 50%+ and related errors by 60–90%.
- Aligned the CPO and Payments teams on conflicting business rules, identifying inconsistencies in approval logic and a potential security-risk window.
- Created and evolved components, variants and patterns; contributed to design system structure, documentation and implementation with engineering.
- Led design reviews and gave feedback on a senior peer's work.
- Trained 500+ store employees remotely and delivered Portuguese-language materials for the Brazil launch.

Product Designer (UX/UI) · *Insight One*

Jan – Jul 2024 · Remote (U.S., Mexico, Venezuela)

B2B Smart Payments Platform

- Owned end-to-end design of a PCI-DSS-certified B2B payments platform, from initial pitch and C-level negotiation through delivery.
- Translated business requirements into high-fidelity interfaces and a structured engineering handoff.
- Reduced support tickets by 40% through role-based segmentation for three user types.

SELECTED PROJECTS

- **Clue App** — Health App UX Case Study · Sep – Nov 2023. Redesigned onboarding, home, and tracking flows based on a UX audit, benchmarking of five companies, moderated testing with nine users and 14 surveys; validated prototypes with 29 users on Maze (usability score 80/100).
- **PALM** — Circular Economy Startup, Colombia · Mar – Jul 2023. Redesigned the landing page and communication flow through weekly Agile iterations; reduced bounce rate and increased user retention by 15% through UX writing and communication improvements.
- **Locusroom** — Payments Startup, Chile · Jan – Mar 2023. Simplified the end-to-end purchase flow for an early-stage startup and validated high-fidelity prototypes through usability testing.

PRIOR EXPERIENCE

Project Manager & Public Policy Consultant

2012 – 2022

Led open-government and multi-sector collaboration projects, facilitating cross-sector negotiation and executive alignment; now applied to stakeholder management and user-centered problem-solving in product design.

CORE SKILLS

PRODUCT DESIGN

End-to-End Product Design, UX Strategy, Product Discovery, Information Architecture, User Flows, Interaction Design, Wireframing, Prototyping, High-Fidelity UI

RESEARCH & VALIDATION

User Research, User Interviews, Journey Mapping, Usability Testing, UX Audits, Research Synthesis, Data-Informed Design

SYSTEMS & PLATFORMS

Design Systems, Component Libraries, Accessibility, POS Platforms, Payment Platforms, PCI-DSS, B2B SaaS, Enterprise Workflows

COLLABORATION & LEADERSHIP

Cross-Functional Collaboration, Stakeholder Management, Workshop Facilitation, Executive Presentations, Negotiation, Design Reviews, Developer Handoff, Agile

AI-ASSISTED DESIGN

Prompt Engineering, AI-Assisted Workflows (Claude, ChatGPT), Reusable Prompt Libraries

EDUCATION

UX/UI Design — Laboratoria (2023)
Selective intensive program (50 women per cohort) with Agile projects for startups across LatAm.

B.A. Social Communication — UAM (2012)

B.A. Political Science — UNAM (2010)

TOOLS

DESIGN & COLLABORATION
Figma, FigJam, Miro, Notion

RESEARCH & TESTING
Maze, Dovetail, Lyssna

DELIVERY & MONITORING
Jira, Confluence, Sentry, Grafana

AI
Claude Code, ChatGPT, Cursor, Lovable

LANGUAGES

Spanish
Native

English
Professional (B2–C1)

Portuguese
Intermediate (B2)

German
Intermediate (B1, TELC)
